PROFESSIONAL SUMMARY

Full Stack Developer with 2.5+ years of experience designing and delivering cross-platform enterprise applications using Java, Spring Boot, React.js, and Node.js. Experienced in end-to-end feature development, RESTful API integration, accessibility engineering, and production support for banking and fintech applications. Strong focus on scalable architecture, application performance, and delivering accessible user experiences across web and mobile platforms.

TECHNICAL SKILLS

Frontend:	React.js, Next.js, TypeScript, JavaScript, HTML, CSS, SASS, SCSS, Material UI, Ant Design
Backend:	Java, Spring Boot, Node.js, Express.js
Database:	MySQL, PostgreSQL, Oracle
Tools:	Git, GitHub, Postman, Chrome DevTools, Sonar, Veracode, Lighthouse, Axe DevTools, Accessibility Cloud
Deployment:	Tomcat, JBoss, WebLogic, WebSphere
Concepts:	REST APIs, Accessibility, Performance Optimization, Debugging, Responsive Design, Reusable Component Architecture, Role-Based Access Control (RBAC)

WORK EXPERIENCE

Software Engineer – *i-exceed Technology Solutions* Jun 2024 – Present

- Led end-to-end development of production-ready Visitor Management and FinTech applications using React.js, Express.js, Spring Boot, and relational databases (MySQL, PostgreSQL, Oracle).
- Designed and implemented modular, reusable UI components using React.js, Material UI, and Ant Design to improve maintainability and consistency across applications.
- Implemented role-based validations, application access controls, authorization, rejection, and user management workflows during user provisioning life cycles.
- Led cross-platform accessibility (WCAG) initiatives for banking applications deployed across major public & private sector banks (Canara Bank, Indian Bank, Central Bank of India, IPPB, Bank of Maharashtra, and Ujjivan Small Finance Bank) for screen readers like NVDA, TalkBack, and VoiceOver.
- Translated Figma designs into fully responsive production-ready features while adhering to security standards.
- Investigated and resolved critical production defects through root cause analysis, boosting application stability.
- Enhanced code quality and security by implementing Sonar and Veracode recommendations, and optimized accessibility using Axe DevTools, Accessibility Cloud, and Lighthouse.

Software Engineer Trainee – *i-exceed Technology Solutions* Mar 2024 – Jun 2024

- Developed modular UI components and assisted in full-stack feature development, debugging, and application deployment processes.

PROJECTS

Accessible Virtual Keyboard (Mobile): Developed a custom accessible keyboard for Android and iOS WebView applications featuring precise focus management, high-contrast support, and improved layout usability.

Portfolio Website: Designed and built a fully responsive personal portfolio website using HTML, CSS, and modular components to showcase advanced technical expertise and project highlights.

Application Prototypes: Built multi-tier functional prototypes featuring secure user authentication workflows, REST API integrations, responsive interfaces, and rigorous accessibility enhancements.

EDUCATION

HKBK College of Engineering – B.E. in Computer Science	CGPA: 8.24
Pre-University College (PUC)	88%
Secondary School Leaving Certificate (SSLC)	85%
