Professional Summary

Full Stack Developer with 2+ years of experience building scalable web applications using React.js, Next.js, TypeScript, Node.js, Express.js, Spring Boot and MySQL. Experienced in translating Figma designs into production-ready interfaces, developing REST APIs, debugging production issues quickly and enhancing existing enterprise applications while improving performance and maintainability.

Technical Skills

Frontend: React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3, SCSS, Ant Design, Material UI

Backend: Node.js, Express.js, Spring Boot, REST APIs

Database: MySQL

Tools: Git, GitHub, Postman, Debugging, Performance Optimization

Professional Experience

Software Engineer - i-exceed technology solutions | Mar 2024 - Present | Bengaluru

- Developed applications from scratch based on Figma designs using React.js and modern frontend architecture.
- Implemented end-to-end features across frontend and backend using React.js, Next.js, Node.js and Spring Boot.
- Built reusable UI components with Ant Design and Material UI to maintain consistent design systems.
- Designed and integrated REST APIs supporting enterprise and banking modules.
- Diagnosed and resolved production issues quickly through debugging and API testing.
- Worked with MySQL databases for data operations and backend workflows.
- Implemented enhancements and provided ongoing support for multiple existing applications.

Software Engineer Trainee - i-exceed technology solutions | Sep 2023 - Mar 2024

- Developed responsive React components based on business requirements.
- Assisted backend API development using Node.js and Express.js.
- Participated in debugging, testing and improving existing application modules.

Key Projects

Online Banking System - React.js, Node.js, Express.js, MySQL

- Built secure UI for account management and fund transfers.
- Developed APIs for transaction workflows and user operations.
- Managed database operations and responsive interface design.

E-Commerce Application - React.js, Node.js, MySQL

- Implemented authentication, product listing and order management.
- Built reusable components and backend APIs.
- Integrated database operations.

Education

HKBK College of Engineering - BE Computer Science (CGPA 8.24), 2023

Sri Maruthi PU College - PCMC (88%), 2019

Anugraha Education Society - Secondary School (85%), 2017
